

Certificado OekoTexStandard 100 Clase1:
Confianza y seguridad en cada colchón.

Oeko-TexStandard 100 Class 1 Certified:
Ensuring safety and comfort in every sleep

ES En el competitivo mundo de la venta de colchones, la calidad y seguridad son esenciales. Por eso, ofrecemos colchones con el certificado Oeko-Tex Standard 100 Clase 1,garantizando que cada componente está libre de sustancias nocivas y alérgenos, siendo apto incluso para bebés y personas con piel sensible. Proporcione a sus clientes la tranquilidad de saber que están adquiriendo un producto seguro y saludable, diseñado para ofrecer el máximo confort en cada noche de descanso.

EN In the competitive world of mattress sales, quality and safety are essential. That's why we offer mattresses with the Oeko-Tex Standard 100 Class 1 certification, ensuring that each component is free of harmful substances and allergens, suitable even for babies and people with sensitive skin. Provide your customers with the peace of mind knowing they are purchasing a safe and healthy product, designed to offer maximum comfort every night.

ES Fibra que permite que el aire circule constantemente por su interior permitiendo y potenciando la evaporación de la humedad.

EN Fiber that allows air circulation constantly inside, allowing and promoting the evaporation of moisture.

ES SuperSoft es una espuma muy suave con una acogida progresiva que ofrece un gran confort.

EN SuperSoft is a soft foam with a progressive reception that offers a great comfort.

ES Espuma firme con estructura regular de células abiertas que facilitan el paso de aire por su interior.

EN Foam layer with regular open cells structure that facilitate the circulation of air inside the mattress.

ES Tejido sin tejer, estabilizador de las capas interiores del colchón.

EN Non-woven fabric, stabilizer of the inner layers of the mattress.

ES Núcleo firme / suave de muelles ensacados que proporciona independencia de lechos, evita molestias de movimientos y consigue una adaptabilidad total y alta transpirabilidad.

EN Firm / soft pocket spring core that provides motion isolation, prevents discomfort of movements and achieves total adaptability and high breathability.

ES Núcleo de estructura de células abiertas con alta transpirabilidad. Evita humedades en el colchón. Posee una firmeza suave, alta o muy alta.

EN Open cell structure core with high breathability. Avoid humidity in the mattress. It has a soft, high, or very high firmness.

MATERIALES / MATERIALS

ES En nuestra empresa, nos enfocamos en la calidad desde el inicio. Trabajamos con proveedores europeos que garantizan materiales seguros y certificados por Oeko-Tex Standard 100. Además, contamos con la certificación ISO 9001, asegurando altos estándares en cada proceso. Apostamos por la calidad para ofrecer productos seguros, duraderos y confortables.

EN At our company, quality is our priority from the start. We partner with European suppliers who provide safe, Oeko-Tex Standard 100 certified materials. Additionally, we hold ISO 9001 certification, ensuring high standards in every process. We are committed to quality, offering safe, durable, and comfortable products.

ES Tejido que permite que el aire circule proporcionando una agradable sensación de frescor.

EN Fabric that allows air circulation inside the mattress providing a feeling of freshness.

ES Tejido de gran elasticidad que da sensación de comodidad y flexibilidad a la hora de tumbarse sobre él.

EN Highly elastic fabric that allows a comfort feeling and flexibility.

ES Viscoelástica perfilada formada por partículas de gel, patentada. Proporciona frescor, optimiza el descanso y acelera la recuperación muscular.

EN Profiled memory foam formed by gel, patented. It provides freshness, optimizes rest and accelerates muscle recovery.

ES Viscoelástica formada por partículas de gel, patentada. Proporciona frescor, optimiza el descanso y acelera la recuperación muscular.

EN Memory foam formed by gel, patented. It provides freshness, optimizes rest and accelerates muscle recovery.

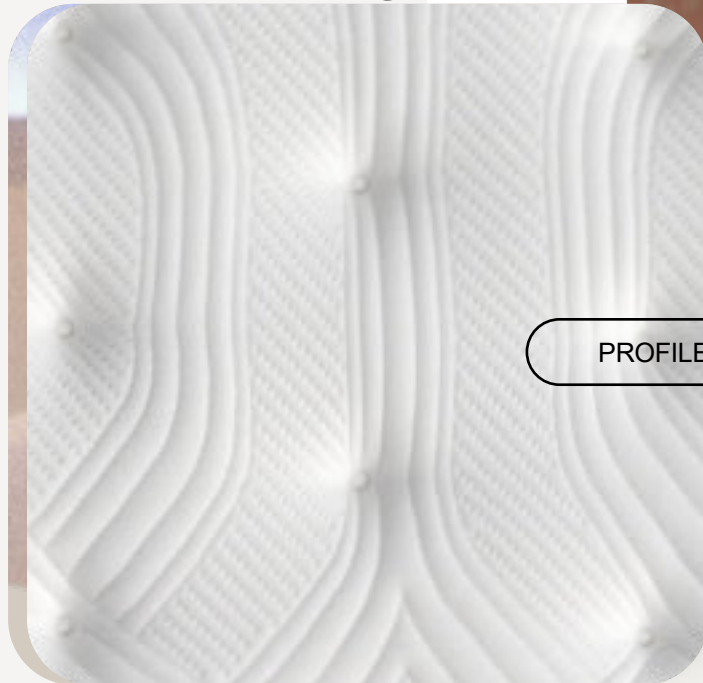

ES Marco perimetral extrafirme, que al sentarnos sobre el borde de la cama impide que los muelles se desplacen hacia los lados. Está perforado para que transpire.

EN Extra-firm perforated frame, sitting on the edge of the bed prevents the Springs move sideways. It is perforated to ensure high breathability.
